Jonathan:

This is what I received from U.S. Ecology about the dates that you rescheduled your waste disposal after you missed the August dates. I assume that you guys are going to miss these dates as well (since it starts today) so I assume you will likely need to reschedule. If you need to reschedule it needs to be done immediately and as soon as feasibly possible and you should not miss the next schedule. You will need to do whatever has to be done (ie. re-containerize the waste, etc) to get the waste properly shipped off-site for disposal in the shortest time possible.

Thanks
Gary Moore
